# ON THE SUMMIT OF SOUFRIERE.

Scientific Party Spends an Hour And a Half There.

CRATER WAS IN ACTIVITY.

Old One Has Become More Funnel Shaped-In Center is a Cauldron of Boiling Water.

Kingston, St. Vincent, B. W. I., Oct. 31.-Henry Powell, curator of the government botanical station here; J. P. Quinton, of the British botanical station in Sierra Leone, West Africa, and W. E. Foster, of the British botanical station at Lagos, West Africa, accompanied by guides, visited the Soufriere volcano Oct. 28 and spent an hour and a half on the summit.

The party found the crater in activity. It was emitting volumes of steam and throwing up numerous cones of ashes from the fissure close under the ashes from the history and a height of 40 feet. Southern wall to a height of 40 feet. During the last half hour of the ex-plorers' stay the crater became vio-lent. Mr. Powell, who from his frequent visits is well acquainted with the features of the mountain is satisfied that the new crater shows no signs of having been in eruption. The old cra-ter has become more funnel shaped than formerly, and is now deepest in its center. Volcanic ejecta almost red hot and smoking profusely have been heaped up around the interior walls of the crater to a height of several hundred feet. The rim of the crater is considerably wider than it was, and the depression on the western rim, over-looking Morne Rouge, has been much In the center of the crater is a caldron of boiling water, and close in under the southern wall is located a fissure from which large volumes of steam and ashes are seen to emerge. The steam and ashes follow the trend of the depression under the southeastern wall, and, gaining the summit of the volcano, are blown to the westward the volcaning the appearance of having come from the new crater. The party found no lava. The configuration of the mountain has been much altered. The sea is still encroaching upon the land at Wallibou estate. The Wallabou river is dry at its mouth, but far inland it is running with fair volume in small channels. There was a slight cruption of Soufriere the night of Oct. 28, when at a quarter past 8 loud greaning sounds were heard and a cloud of dark vepor was thrown out. These disturbances have continued and are causing much excitement at Georgetown, where earth tremors are From the general appearance of the

volcano another eruption of a serious nature can be expected. The adminisrator of St. Vincent visited the Georgetown district Oct. 26. He has advised the governor of the Windward Islands, Sir Robert Llewellyn, that it is advisable permanenty to locate the peo-ple of the disturbed part of the island at North Union, which is at a considtrable distance from the volcano,

#### PERISHED IN THE FLAMES. Victims May Have Been Murdered And Then Robbed.

Palmyra, Wis., Oct. 30 .- The home of William Wickingson, near here, was burned to the ground this morning and it is thought the three occupants of the ise were robbed and murdered. The names of those whose charred remains were found in the ruins are as follows; William Wickingson, aged 42 years. Albert Wickingson, aged 40.

Julia Wickingson, aged 36 years. Evidence secured points to murder. The most important clues are that Wickingson drew \$500 from a local bank Monday and that a buggy was heard on the road near the Wick-ingson home shortly before the fire was scovered. In the search of the ruins today, William Wickingson's body was found face downward, with arms outstretched, and near the charred bones of his right hand was found a revolver and \$365 in gold. A tin box was also found containing burning fragments supposed to be of bills amounting to nearly \$1,000. The other bodies were also found. It is thought that William Wickingson died while fighting with his revolver, and that his brother struck by his assailant while he was in the hallway. The bodies were placed in one coffin and removed to La Grange.

# Boers Are Loyal.

London, Oct. 30 .- The Contemporary Review has published an article by Gen. Botha, in which the writer insists upon the loyalty of the Boer leaders to Britain. He expresses regret that the language of some of their continen-tal appeals has been misinterpreted when scanned microscopically in Eng-land, and reiterates his fervent desire to co-operate with the British govern-ment in smoothing the effects of the

Gen. Botha says it is humiliating to have to appeal to foreigners for funds to aid his countrymen, and that he believes that if Englishmen realized the itiable condition of their vanquished would be no need to make appeals for help.
In conclusion, the writer urges a gen-

eral and complete amnesty, which, he says, would remove the most potent use of entrangements between Britons and Boers.

## Great Danes Save Four Lives.

Chicago, Oct. 31.—Two great Dane dogs saved the lives of four persons last night and then were rescued them-selves from a burning building in Ashland avenue by their grateful mas-ters

The dogs apparently became fright-ened at the smoke and the crackling of the flames under them and began to bark. The noise they made awakened and Arthur Hirsch, members o the Calumet Metal company, and J. C. Spokane and Benjamin Barrigan, who were asleep in the building. As they were leaving the building Arthu-Hirsch suggested to his brother that they ought to save the dogs, so the two turned back, and groping their way through the smoke found the two dogs huddled together almost overcome. Grasping the dogs by the collars the two men drew them to a rear door and

escaped.
The fire caused a loss of \$35,000.

He was killed by the cover of a converter, of tremendous weight, which fell, and of the twelve men employed there Benton alone was un-able to jump clear. The converter weighed three and one-half tons.

# ng into the White House.

Washington, Oct. 30 .- Many of President Roosevelt's personal belongings were removed today from the ten-or-ary executive quarters to the remod-

eled White House. Tonight the president is occupying his old room in the southwest corner of the second floor of the White House—the room formerly occupied by Lincoln, Harrison and at times by some other presidents. The room has been refitted entirely. Next week the president's family will return to the White House and the temporary quarters on Jackson place will be re-linquished, both as the residence of the president's family and as the business

## Six Firemen Injured.

Minneapolis, Minn., Oct. 30 .- Six firemen were injured at midnight in a fire that entailed a damage estimated at \$250,000. The six-story building oc cupied by the Minneapolis Paper com-pany and owned by J. C. Oswald & Co. was gutted. The stock of the pape company, known also as Wright, Bar-rett & Stillwell, was consumed. The contents are said to have exceeded \$200,000 in value.

Capt. George Smith of engine com-pany No. 16 was leading a squad of men up a ladder on an adjoining structure on First avenue, when the ladder broke, precipitating six men to the ground. Capt. Smith suffered internal injuries that may prove fatal. Firemen George Cheney and Frank Hessick were also badly hurt. The other three firemen were able to reach th city hospital without assistance.

## Bequest to Rathbone Home.

New York, Oct. 31 .- A second large bequest made in less than a year to the Rathbone memorial home for aged and infirm persons, at Evansville, Ind., has been disclosed through the filing for probate in the surrogate's office of the will of Mrs. Kate Rathbone, widow of George Rathbone, who died on Oct. 3 at Clifton Springs. ## Important Capture of Counterfeiters

San Francisco, Cal., Oct. 31 .- An important capture of counterfeiters was made by the federal authorities aided by the police early this morning when two men, giving the names of Harold Jones and Harry Peterson, were taken into costody, after a hard struggle. The men have been under surveillance for some weeks past and, according to the authorities, have passed a great quantity of bogus half dollars. Thirteen counterfeit 50

were found on Peterson and one or two on Jones. Notice of the operations of the two was sent to this city from Seattle, and it is believed that fully \$10,000 worth of the stuff has been un-loaded by them on the coast.

Plaster of Paris and other articles used in the counterfeiting were found in their room, but no moulds, which, however, the police believe they will

# Egyptian Exploration Fund.

Boston, Oct. 31.-A circular issued to the subscribers of the Egypt exploramittee has determined that it was for the interest of the fund and for the advantage of the American subscribers that the management here should be put in the hands of a practically independent committee working in har-mony with the fund in London. The committee has been formed by

the choice of Prof. William Watson Goodwin, of Harvard university, as chairman and John Ellerton Lodge as secretary.

# Germany at St. Louis Fair.

Berlin, Oct. 31 .- The German government has decided, after a long delay, to make an adequate representation at St. Louis. Home Secretary Posadowsky, within whose jurisdiction the business comes, has shown recently a strong official and personal interest in the fair. The cabinet at his request has inserted, it is understood, an item of \$500,000 in the budget to defray the expenses of the German official exhibits at the fair. The government quite expects the Agrarians to object to the appropriation, and as it will have to deal with a hostile majority said \$500,000 seemed the utmost desir-able amount and even this sum may be diminished in the final revision of the budget before it is submitted to the reichstag at the end of November or the beginning of December. This reichstag's appropriation can be supplemented next year.

# THREE COLLAR **BONES BROKEN**

That is the Record for Football Here in Three Weeks.

GUARD CAMERON LAID OUT.

High School Game Yesterday-West Side Won.

Another collar bone was broken in a football game yesterday afternoon, making the third fracture of this kind in three weeks. Fred Smith of the Guards started the ball rolling by having his collar bone broken in the game with the Logan Aggies. The next mishap occurred at Logan last Monday in the game between the Aggles of Colorado and Logan, and yesterday the third happened in the first down of the game between the east and west side high school teams. Cameron, left guard for the east siders, was the unlucky man. After the first minut's play he was carried from the field suffering from a broken collar bone. Verily, football is

no ping pong party.

The contest was a battle royal from beginning to end and every inch of ground won or lost was fought for nercely. The west siders carried off the honors by a score of 24 to 5, but that does not indicate by any means that they had a walk over.

The defeated team made the first touchdown after four minutes' play, the pigskin was on the west side 20yard line when a kick was called for. The fullback missed the ball and Salisbury grabbed the oval and raced down the field for a touchdown before he could be stopped. After this the West siders began doing things. Pierce, with splendid interferance, bucked through the line for 40 yards, scoring a touch-down. The other three touchdowns were scored by Black, Bintz and Pierce, mainly through bucking, and end runs were hardly thought of dur-

ing the entire game. The winners are anxious to arrange a game with the Provo team, and it is quite likely that a contest will take place before long. The line-up of the teams yesterday follow:
